

## Retail Streetscape Solutions

Transform retail centers into vibrant destinations. Our streetscape solutions enhance safety, guide visitors, and create a welcoming atmosphere that encourages customers to linger, explore, and return.

### Street Lighting

Streetlights illuminate parking lots, walkways, and entrances, reducing the risk of accidents or injuries and deterring theft, vandalism, and other criminal activities by removing dark, secluded areas. A well-lit retail center feels safer, encouraging more extended visits and improved satisfaction.

### Decorative Street Signs

Lighted and reflective signs provide clear directions to parking areas, specific stores, entrances, and exits, helping customers easily navigate the space. Streetlights and bollards can highlight paths and crossings, making the layout intuitive even for first-time visitors.

### Solar Post Tops & Bollards

Proper lighting allows retail centers to remain operational and inviting after sunset, extending business hours and increasing revenue potential. Many retail centers host nighttime events, such as concerts, holiday celebrations, or food markets. Adequate lighting ensures these activities are enjoyable and safe for large crowds of pedestrians.
