

Enhance CBU Areas Effortlessly with Solar Powered Lighting

The perfect addition to your CBU area, our Solar Powered Post Top lighting is engineered to match the performance of traditional post top lighting, featuring high-performing LEDs powered by solar energy. Fitted with advanced solar cells, these post tops assure optimal illumination throughout the year, unfazed by varying weather conditions.

Economically efficient, our Solar Post Tops present a green and sustainable lighting solution, eliminating maintenance requirements. Experience the ease of installation with a hassle-free process—no costly trenching, wiring, or grid connections needed.
